

**T**he Holy Spirit of God is the living Spirit of **Truth**. He was sent from Heaven to dwell inside our hearts and work there. His Ministry in us is to guide our spirit into all of God's Truth. He does so by **teaching** Truth to us. (*St. John 14:26*) The things that He teaches, we must diligently learn. We learn and reach the state of knowing Truth. (*St. John 8:31-32*) When we know Truth, we gain freedom from fear, anxiety, stress, etc., things that weaken our body's immune system and threaten our health.

### God's Word Works in us

Living Truth in us is greater than any thought or spirit operating on earth, including Satan himself. Through God's word, the Holy Spirit releases Supernatural Power onto our spirit. This act empowers our spirit to overcome challenges, move to God's Kingdom and inherit blessings already prepared for us. The Holy Spirit works in us producing the following spiritual things that guarantee manifestation of God's **glory**:

- **Vision**—God's words from Him give us a **vision** of our future; one that He has "planned" and "prepared" for us. Through vision, we forget our negative past and look forward to our future. He says that old things are passed away; all things are become new. (*II Corinthians 5:17*) Only good is prepared and Promised to come and appear to us. (*St. John 16:13*) (*Psalms 90:16*)

With our mind's eye, then, we actively visualize the Promises that God has made. For example, He has promised to restore our health. (*Jeremiah 30:17*) We must visualize that. He Promises to increase us more and more. (*Psalms 115:12-14*) We must visualize that. God is a God of Integrity who cannot lie. (*Numbers 23:19*) He is certain to do everything that He has Promised us. He possesses the Power to do so.

- **Desire**—God's Promises produce **vision**. Our vision from those Promises creates a desire for the things. Once we hear and/or read God's Promises to us, we begin desiring to possess them in our lives. (*Psalms 37:4*) He places the desire in our heart as a part of His Plan to bless us. He does not give us what we do not desire from Him. We desire good health from Him; we desire financial increase from Him. Visualization creates and maintains an ongoing desire for the things Promised. Also, it creates an expectation of our receiving the things. (*Psalms 62:5*)
- **Hope**—The Promises of God are unseen because He is a Spirit. We do not physically possess the things Promised the very moment that we receive them. We must hope for them. Here is the reality: God gives us His words of Promise. Hope resides inside those words. The Power inside them causes us to hope to experience manifestation of them. (*Psalms 119:49*) We must believe that the things Promised are True. With that thought in mind, we must shift our attention away from our present circumstance and earnestly look forward to seeing the manifestation of His Promises. Manifestation will be His **glory**. We expect and with patience wait for them to happen. We "look forward" to their manifestation, or appearance. (*Romans 8:25*)

### Spiritually Positioned to Inherit

Vision, Desire and Hope are the critical factors that guarantee God's manifesting blessings in our lives. Things are prepared and laid up for us. The Holy Spirit "transfers" those things from the Spirit realm to the natural realm for our consumption. If we follow these action principles of God, we are certain to inherit blessing.
